Subject Index

- | | | | |
|--|--|---|--|
| AACCI Annual Meeting
2012 exhibitors, 278
2012 preview, 171 | Student Travel award
winners, 282 | Almonds, benefits in breakfast
cereals, 64 | Cereal grains
biofortification, strategies,
challenges, and benefits,
165 |
| AACCI Approved Methods
cooked pasta and noodle
texture method 16-50.01,
assessment of probe type
for measuring texture, 56 | AACCI board elections for
2013-2014, 285 | Amylose, apparent content in
milled rice determined,
ammonium buffer method,
14 | development of value-added
production chains, 44 |
| dietary fiber method
32-07.01, challenges of
automated analysis, 50 | AACCI Check Sample
Analytical Awards, 283 | Bacterial pathogens, sprouted
seeds contaminated with,
123 | Cereal processing,
development plan for
Chinese food industry, 130 |
| firmness of cooked pulses
method 56-36.01
approved, 230 | AACCI corporate member
salute, 68 | Baking (column), 89, 135, 241,
297 | Cereals (column), 91, 239 |
| total carotenoid content of
cereal whole grain and
refined flours method
14-60.01 approved, 289 | AACCI Foundation Awards,
244, 281 | Biofortification of cereal
grains, strategies, challenges,
and benefits, 165 | CFW Reports
11th European Young
Cereal Scientists and
Technologists Workshop,
190 |
| AACCI Awards
2012 award winners, 279 | AACCI Report
AACCI Method 14-60.01
collaborative study, 289 | Breakfast cereals, benefits of
added almonds, 64 | <i>Dietary Guidelines for
Americans</i> , attributes of
refined grains, added
fibers, and bran, 86 |
| 2012 Division award
winners, 280 | AACCI Method 56-36.01
collaborative study, 230 | Carbohydrates
health benefits, 31 | Collaborative studies
firmness of cooked pulses
method 56-36.01, 230 |
| Best Student Research Paper
Competition, 281 | annual report, 268 | Cassava, carbohydrate source,
availability and utilization, 4 | total carotenoid content of
cereal whole grain
and refined flours method
14-60.01, 289 |
| Check Sample Analytical
Accuracy, 283 | Food Safety Systems Task
Force, development of
tools for collaboration,
125 | Celiac disease, multidisci-
plinary approaches to
understanding and
treatment, 215 | Corn (see also Maize), use of
whole grain in gluten-free
flat bread, 6 |
| Student Product Develop-
ment Competition, 281 | Treasurer's Report for
FY2012, 269 | | |
| | AACCI Student Product
Development Competition,
281 | | |
| | AACCI Student Travel
Awards, 282 | | |
| | AACCI year in review, 267 | | |

- Dietary fiber, AACCI Method 32-07.01, challenges of automated analysis, 50
- Dietary guidance, innovation in grain-based foods, 10
- Dietary Guidelines for Americans*, attributes of refined grains, added fibers, and bran, 86
- Editorial
A. Bettge, 147
J. Grider, 3
D. Hahn, 251
- Engineering (column), 33, 192
- Fiber
dietary, AACCI Method 32-07.01, challenges of automated analysis, 50
soluble, benefits of enrichment of whole grain foods, 256
- Flour, grape seed and skin, flavor and functionality in baked goods, 262
- Food safety
AACCI Food Safety Systems Task Force, development of tools for collaboration, 125
effects on wheat flour of methods for reducing contamination, 104
rapid methods of mycotoxin analysis, 119
sprouted seeds, risk of contamination with bacterial pathogens, 123
- Food Safety Modernization Act of 2011, new food supply chain regulations, 111
- Food safety systems
design and validation, 91
building a program, 239
- Food supply chain
Food Safety Modernization Act of 2011, new regulations, 111
management, microbiological integrity of processed grain ingredients, 115
- Fortification of cereal grains, strategies, challenges, and benefits, 165
- Global Conversation, development plan for Chinese cereal processing industry, 130
- Gluten
in wheat, polymerization reactions in pretzels, 203
multidisciplinary approaches to understanding and treatment of celiac disease, 215
network formation and functionality, overview, 209
- Gluten free
diets, analysis of *Wheat Belly*, 177
pasta, composition and quality, 225
products, whole grain flat bread, 6
- Grain-based products
benefits of rapid indirect heating, 158
innovation to support dietary guidance, 10
- Grains, microbiological integrity of processed ingredients, supply chain management, 115
- Grape seed and skin flours, flavor and functionality in baked goods, 262
- Heat treatment technologies, impact on grain product processing, 158
- Maize (see also Corn), carbohydrate source, availability and utilization, 4
- Market Research (column), 28, 133
- Millet, use of whole grain in gluten-free flat bread, 6
- Mycotoxin analysis, rapid methods, 119
- Noodles (see also Pasta), assessment of probe type for measuring texture, 56
- Nutrition
analysis of *Wheat Belly*, 177
benefits of grape seed and skin flours in baked goods, 262
Nutrition (column), 235
- Obesity, link to whole grain intake, review of evidence, 20
- Obituary, D. S. Chung, 140
- Pasta (see also Noodles)
assessment of probe type for measuring texture, 56
gluten-free, composition and quality, 225
- Peanuts, innovative cereal applications, 252
- Plant genetics
cereal grains, development of added value in, 44
of rice, impact on eating and cooking qualities, 148
- Potato, carbohydrate source, availability and utilization, 4
- Protein
gluten network formation and functionality, overview, 209
- in wheat, impact on bread quality, 241
wheat gluten polymerization reactions in pretzels, 203
- Rice
carbohydrate source, availability and utilization, 4
eating and cooking qualities, genetic bases, 148
milled, ammonium buffer method for determining apparent amylose content, 14
use of whole grain in gluten-free flat bread, 6
- Soluble fiber, benefits of enrichment of whole grain foods, 256
- Sorghum, use of whole grain in gluten-free flat bread, 6
- Sprouted seeds, risk of contamination with bacterial pathogens, 123
- Wheat, carbohydrate source, availability and utilization, 4
- Wheat Belly*, analysis of statements and theses, 177
- Wheat flour, methods for reducing contamination, effects on, 104
- Whole grain products
benefits of enrichment with soluble fiber, 256
- Whole grains
link to body weight, review of evidence, 20
use in gluten-free flat bread, 6
